About your TCL LINKZONE 5G UW

1. Touch screen
Navigate the screen using your finger.

2. Power button
• To turn on, press and hold until screen welcome message appears.
• To turn off, press and hold until Shutdown screen appears. Then tap 'shutdown'.
• Press and release to wake up the display.

3. USB-C port
• Connect to a power supply using the included USB-C cable and wall adapter.
• Connect to "On the Go" (OTG) Cable (sold separately) to recharge other accessories such as a smartphone or bluetooth headset.

4. LAN port
Connect an Ethernet cable to a computer which provides secure connection to connected devices.

5. Reset button
If your device does not respond or needs to be reset, insert a sharp object, such as a paper clip into this hole for 3 seconds.
NOTE: All passwords will be reset to default settings.

**Setting up TCL LINKZONE 5G UW**

Your device has a Verizon 5G SIM card already installed.

If the SIM card must be replaced:
1. Open the back cover, remove the battery, and slide the SIM card out of the SIM Card Slot.
2. To reinstall it, align the cutout tab using the diagram and gently slide the card into the slot with gold metal side down.
3. Reinstall the battery.
4. Close the back cover.

**NOTE:** Only a Verizon Nano SIM card can be used.

---

**Step 1: Insert the Battery**

To Install the battery:
1. Align the metal contacts with the pins inside the battery compartment.
2. Press the battery down until it properly sits in place.
3. Press the back cover into place by aligning the tabs. It only fits one way.

---

**Step 2: Charge the TCL LINKZONE 5G UW**

1. Connect one end of a USB-C cable to the device and the other end to a wall charger.
2. Insert the wall charger into AC power source and charge LINKZONE for 2 hours.
Using TCL LINKZONE 5G UW

Turn your LINKZONE on/off

1. Press and hold the power button to turn on your LINKZONE. When the display screen lights up, remove your finger from the button.

2. Following the wakeup animation, select **English** or **Spanish** language, and then tap on the Home screen icons to familiarize yourself with the menu and features of your LINKZONE.

3. A quick press of the power button will turn on the display screen and wake up the device.

4. To turn LINKZONE off, press and hold the power button. Then tap "**Shutdown**" on the touchscreen to power down the device, or tap "**Restart**" to power cycle your device.

Connect to LINKZONE network

You have two options to connect your LINKZONE to the network.

1. Wired connection using either option below:
   - Connect the LINKZONE to your computer using the provided USB-C cable.
   - Connect one end of an Ethernet cable into the LAN port on the side of LINKZONE and the other end to your computer.

2. Wireless Connection:
   - a. Tap "**Wi-Fi Name/Password**" on the LINKZONE Home Screen.
   - b. Open **Settings** on your wireless device and turn on Wi-Fi.
   - c. Select the network name (SSID) and enter the password. Your device will connect to the wireless network.
   - d. Alternate QR code method: From the network settings on your smartphone, tap on the scanner icon next to password, and scan the QR code on the LINKZONE screen. The device will automatically connect to the wireless network.

**NOTE:** The Wi-Fi name and default passwords are also printed on the label underneath the battery.

Access advanced settings

You can access advanced settings and manage your LINKZONE network from the touchscreen. The Home screen displays the information for your network.
Tap **Menu** to view the Wi-Fi status, manage connected devices, change settings, and update software.

To configure more settings, open a web browser on the connected device, and log in to the Admin website, http://my.mobilehotspot (See the Admin website and login password on the label underneath the battery inside your LINKZONE.)

**Using TCL Connect App**

You can also use TCL Connect App to control your TCL LINKZONE 5G UW.

1. Download the TCL Connect App using one of the following two methods:
   - Scan the QR code printed on the box to download TCL Connect app.
   - Download it from Google Play (running on Android 5.0 or higher) or App Store (running on iOS 11.0 or higher).

   ![QR Code]

2. After you have downloaded the TCL Connect App to your smartphone:
   b. Tap on the **TCL-MW513U** symbol.
   c. Follow the on-screen instructions to complete the login process.

3. Use the TCL Connect app to change settings, monitor usage and control your LINKZONE.

**NOTE:** Admin password is provided on the label underneath the battery. Write down the password and keep in a safe place away from the LINKZONE.

---

**Resetting TCL LINKZONE 5G UW**

**NOTE:** Resetting your LINKZONE will disconnect devices and reset network names and passwords.

Reset your LINKZONE to factory settings using one of the following two methods:

1. Use a sharp object such as a paper clip end to press into the hole marked “RESET” on the side of LINKZONE for 3 seconds.

2. Tap on the LINKZONE screen, and navigate to **Menu > Settings > Factory Reset**.

![Factory Reset]

This operation will restore all settings to the factory default settings.

The MW513U will restart automatically and all devices will be disconnected.
