

Quick reference guide

TCL TAB

About your tablet

Not all features, apps or services may be available with your plan, device operating system and software version. Please contact your wireless service provider for more information. **NOTE:** Devices and software are constantly evolving – the screen images and icons you see here are for reference only.

Setting up your tablet

Your tablet already has a NANO SIM card installed. MicroSD cards (capacity up to 256GB) may be purchased separately.

Insert the SIM card*/microSD card

Power off the tablet before opening the SIM tray to remove and/or insert the NANO SIM or microSD card.

Step 1. If you need to replace the NANO SIM card and/or insert an optional microSD card, use the SIM tool provided in the box to open the SIM tray.

*A Subscriber Identity Module (SIM) card is a “smartcard” that houses personal information, such as your mobile number and account information. The Verizon 4G LTE SIM card is compatible with any Verizon 4G LTE certified device that uses the same size SIM card. The 4G LTE SIM card can move from one device to another, and your wireless service will support the services that are compatible with your new device and service plan. To see which devices are compatible with the Verizon 4G LTE SIM card, visit verizonwireless.com/certifieddevice

Step 2. Remove the NANO SIM card/microSD card tray.

Step 3. Position the SIM card and/or microSD card in the tray correctly, aligning the cutout tab and gently snap into place. Be sure the edges are aligned.

Step 4. Slide the tray slowly into the SIM tray slot. It only fits one direction. Do not force into place. Keep the SIM tool in a safe place for future use.

NOTE: The microSD card is sold separately.

Charge your tablet

You might need to charge the battery before using your tablet by inserting the small end of the charging cable into the charger port as shown.

Charge your tablet fully before turning it on and starting the set up process. Insert the other end of the USB cable into your wall charger and plug it into a wall outlet.

WARNING: Only use the charger and cable supplied with the tablet. Using incompatible chargers or tampering with the charging port could damage your tablet and void the warranty.

Using your tablet

Turning your tablet on/off

NOTE: The first time you turn on your tablet, you may need to activate it. Follow the on screen instructions to set up your device.

To turn on your tablet, press and hold the **Power/Lock key**.

To turn off your tablet, press and hold the **Power/Lock key**, and tap **Power Off** on the screen when it appears.

Locking/unlocking the screen

To turn on your screen, press the **Power/Lock key**. Then swipe up on the screen to unlock it.

To create a screen unlock pattern, touch **Settings > Security > Screen lock**.

To turn off your screen and prevent accidental key presses, press the **Power/Lock key**.

Touch screen tips

Use touch gestures to move around the screen, open menus, select items, zoom in and out of web pages and more.

There are several touch gestures recognized by your tablet:

Tap – Tap the screen with your finger to select items or press buttons on the screen.

Touch and hold – Touch and hold an item on the screen (such as a link in a web page) to open available options.

Swipe – Swipe by quickly sliding your finger in any direction.

Drag – To drag, touch and hold an item and move it to a new position.

Double tap – Double tap to zoom in/out on a web page or picture.

Multi-touch – Pinch or spread your thumb and index finger to zoom in or out.

Home screen

The Home screen provides quick access to all the items (applications, shortcuts, folders and widgets) you like to use most frequently.

Touch the Home symbol to get instant access to the Home screen.
